In this compelling and heartfelt book, you’ll learn: <ul style="list-style-type: none"> <li>• Why well-meaning advice, therapy, and spiritual wisdom so often end up making it harder for people in grief</li> <li>• How challenging the myths of grief—doing away with stages, timetables, and unrealistic ideals about how grief should unfold—allows us to accept grief as a mystery to be honored instead of a problem to solve</li> <li>• Practical guidance for managing stress, improving sleep, and decreasing anxiety without trying to “fix” your pain</li> <li>• How to help the people you love—with essays to teach us the best skills, checklists, and suggestions for supporting and comforting others through the grieving process</li> </ul>	<b>155.9 D</b>

<i>When Dinosaurs Die: a guide to understanding death</i>	Brown, Laurie Krasny and Marc	Ages 5-8. Unlike many books on death for little ones, this one doesn't tell a story. Instead, it addresses children's fears and curiosity head-on, and in a largely secular fashion, by answering some very basic questions: "Why does someone die?" "What does <i>dead</i> mean?" "What comes after death?" Other questions deal with emotions, and there's a section about death customs. The forthright approach makes the subject seem less mysterious and provides kids with plenty to think about and discuss with their parents. It's the brightly colored artwork, however, that will really enable children to relax with the concept.	<b>155.9 B</b>
